Fondazione Fiera Milano

Accessibility Statement

E. A. Fiera Internazionale di Milano is committed to ensuring that its website is accessible, in accordance with Italian Law no. 4 of 9 January 2004. This accessibility statement applies to www.accademiafieramilano.it.

General Information

- **Subject of the statement:** Website
- **Website name:** Accademia Fiera Milano
- **Reference technical standards used:** WCAG 2.1

Compliance Status

Partially Compliant

This website is partially compliant with the requirements set out in Annex A of the UNI CEI EN 301549 standard, due to the non-compliance cases listed below.

Non-accessible Content

The content listed below is not accessible for the following reasons:
a) **Non-compliance with Law no. 4/2004**: No
b) **Disproportionate burden**: No
c) **Content not falling within the scope of applicable legislation**: No

Non-compliant sections, content and functions:

- **C.9.1.1.1:** Some non-text content presented to users does not have an equivalent text alternative serving the same purpose.
- **C.9.1.3.1:** In some sections, information, structure and relationships conveyed through presentation may not always be programmatically determinable or available in text form for assistive technologies.

- **C.9.1.3.5:** The purpose of some input fields for user information may not always be programmatically determined, limiting accessibility for certain assistive technologies.
- **C.9.1.4.3:** In some sections, the contrast between text and background may not reach the recommended minimum levels, making text difficult to read for some users.
- **C.9.1.4.10:** Content that does not require a two-dimensional layout (such as data tables or maps) does not reflow when the display size changes.
- **C.9.1.4.11:** For some essential components, including in different states, the colour contrast with adjacent elements does not exceed the 3:1 ratio.
- **C.9.2.2.2:** Some animations, flashing, scrolling or automatically updating information that start automatically, last more than five seconds or are presented in parallel with other content, do not provide mechanisms to pause or hide them.
- **C.9.2.4.1:** There is no mechanism to skip blocks of content that are repeated across multiple web pages.
- **C.9.2.4.4:** In some cases, the purpose of links may not be clearly identifiable from the link text alone or from its context.
- **C.9.2.5.3:** Some input fields and their corresponding labels do not match, creating inconsistencies between visible text and accessible labels.
- **C.9.3.2.1:** In some sections of the website, certain user interface components may unexpectedly trigger a change of context when they receive focus.
- **C.9.4.1.2:** In some cases, user interface components (including form elements, links and script-generated components) do not have correct or properly set names, roles, states, properties or values, or users and their assistive technologies are not notified when these change.

Accessible Alternatives

Elements that do not yet meet the minimum contrast ratios can be corrected by activating the adaptations available through the Accessibility Widget.
For elements where the focus indicator is not natively visible, it can be enabled using the "Keyboard Navigation" feature of the Accessibility Widget.

Preparation of the Accessibility Statement

This statement was last reviewed on 1 September 2026, in accordance with the recommendation to periodically review, at least annually, the accuracy of the information contained in this accessibility statement.

Method used to prepare the accessibility statement: Evaluation carried out by third parties.
